How to use this digital notebook

As you read 50+ Tech Tools for School Counselors, keep notes about how you could:
- Use this tool in different ways than the authors share
  - Example: Kahoot! is listed as a data collection tool, but could you also use it at a family night to promote your comprehensive school counseling program?
- Use an alternative tool for the same purpose, perhaps one with new, better, more accessible features
  - Example: Pinterest is listed as a fantastic place to find resources, but could you also find this content and these ideas on Tik Tok?
- Create a list of questions to determine if this tool meets the needs of your student population.
  - Example: If your student population is composed of English Language Learners, does this tool provide translation services?
